

PROPOSAL
PENILAIAN SUMATIF AKHIR SEMESTER GENAP
TAHUN PELAJARAN 2025/2026
PROYEK TUGAS AKHIR

Nama Siswa : ROICHAN ARYSHAPUTRA
NIS : 258730
Kelas : X PPLG 1

Judul Proyek

Website bengkel las “sayap mas steel”

Latar Belakang

Pemilihan judul *Website* bengkel las “sayap mas steel” didasarkan pada tujuan untuk memberikan informasi kepada calon pembeli jasa las dan meyakinkan mereka untuk menggunakan jasa las di bengkel sayap mas steel

Pemanfaatan Teknologi Web: Pemilihan judul yang mencantumkan platform "Web" menunjukkan fokus pada kemudahan akses, mobilitas tinggi, dan penggunaan teknologi modern dalam menyajikan data.

Keunggulan Dan Fungsi Produk/Jasa

Informasi harga dan estimasi pembuatan: calon pembeli dapat melihat perkiraan harga dan estimasi pengerjaan. Jadi calon pembeli dapat memproyeksikan anggaran yang diperlukan.

Fitur pemahaman perbedaan jenis bahan baku : Fitur ini memberikan pemahaman terhadap calon pembeli tentang bahan baku yang digunakan untuk membuat kanopi, pagar, pintu, dan teralis. Dengan fitur ini pengguna mendapatkan gambaran umum dan bisa memperkirakan bahan baku yang akan digunakan sesuai kebutuhannya.

Fitur *ChatBot*: Dengan adanya chatbot ini calon pembeli bisa mencari informasi seputar bengkel Sayap Mas Steel, calon pembeli dapat bertanya tentang harga, perencanaan, estimasi, design yang diinginkan dan pengalaman pemilik bengkel Sayap Mas Steel

Tampilan yang Sempel: Desain UI/UX yang simpel (*Home*, Tentang Kami, Galeri, Layanan, Kontak, dan *Chatbot*) memudahkan pengguna membaca informasi tanpa kebingungan

ESTABLISHED PRECISION

Engineering Structural Excellence Since 1998.

Sayap Mas is more than a welding workshop; we are a center for technical innovation where metallurgy meets architectural vision.

The Master's Legacy

Lead Engineer & Founder

Agus Setiawan, Senior Welder (CWI Certified)

With over 25 years of hands-on experience in specialized metallurgy, Agus Setiawan founded Sayap Mas with a singular mission: to bring industrial-grade precision to bespoke fabrication. His journey began in high-pressure oil and gas pipeline welding, where a single millimeter of error was not an option.

Today, that same rigorous standard is applied to every project at Sayap Mas, whether it's a structural steel frame for a commercial building or a delicate architectural staircase.

25+ YEARS

Technical Mastery

1,200+

Projects Completed

CERTIFIED

AWS/CWI Standards

Workshop Infrastructure

Our facility is equipped with state-of-the-art machinery to ensure every weld is clean, deep, and permanent.

Precision TIG & MIG Units

We utilize advanced pulsed-TIG machines for thin-gauge stainless steel and heavy-duty MIG setups for structural carbon steel, ensuring minimal heat distortion.

MATERIAL DEPTH

0.5mm to 50mm

HEAT CONTROL

Digital Sync

CAD Integration

Every fabrication begins with a digital blueprint. We bridge the gap between architectural vision and structural reality using precise technical drafting.

Quality Control

Non-destructive testing (NDT) and visual inspection protocols for every structural joint.

Material Sourcing

Certified grade 304/316 Stainless, high-carbon steel, and specialized alloys only.

Timely Delivery

Standardized project management ensures your construction timeline remains intact.

Strategic Operations

Headquarters & Workshop

Jl. Industri Metalurgi No. 42
Kawasan Industri Jababeka, Bekasi

Operational Hours

Monday - Friday: 08:00 -18:00
Saturday: 09:00 -15:00

Technical Consultation

+62 (21) 555-0198

OUR CAPABILITIES

Precision Metal Fabrication Services

High-quality welding and metalwork solutions tailored for structural integrity and aesthetic excellence. Explore our core service offerings below.

STRUCTURAL

Canopy

Durable and stylish protection for your driveway or patio. Custom designs using premium hollow steel or stainless materials.

PRICING MODEL

200k - 400k / sqm

Trellis

Reinforced security for windows and ventilation without compromising on visual design or light flow.

EST. PRICE

250k - 500k / unit

Fences

POPULAR

Perimeter security designed to complement your architecture. Choice of minimalist modern or ornate classical styles.

STANDARD RATE

350k - 600k

Per Square Meter

ENTRYWAYS

Doors & Gates

Custom main gates and security doors. Precision-engineered for smooth operation and maximum longevity.

UNIT PRICING

400k - 800k

Technical Specifications

WELD TECHNIQUE

MIG/TIG Welding

Clean seams, high strength.

FINISHING

Powder Coating

Weather-resistant coatings.

TIMELINE

7-14 Working Days

Varies by project scale.

WARRANTY

1 Year Structure

Quality guaranteed.

Galvanized Steel

Stainless Steel

Sayap Mas

Professional welding workshop specializing in structural metalwork and custom fabrication for residential and industrial projects.

PORTFOLIO

Our Craftsmanship in Metal

Explore our recent welding projects, ranging from custom residential gates to large-scale industrial canopies. Each piece is a testament to our commitment to structural integrity and aesthetic precision.

All ProjectsCanopiesGatesWindow TrellisesIndustrial

GATES

Modern Minimalist Gate

Precision-engineered steel gate with powder-coated finish for durability and privacy.

[VIEW PROJECT →](#)

CANOPIES

Architectural Canopy

A sleek polycarbonate roofing solution with a reinforced industrial steel frame.

[VIEW PROJECT →](#)

TRELLISES

Geometric Window Grill

Custom security trellises combining safety with contemporary geometric design.

[VIEW PROJECT →](#)

INDUSTRIAL

Warehouse Structural Frame

Heavy-duty structural welding for an industrial warehouse facility in the commercial district.

[VIEW PROJECT →](#)

CUSTOM

Loft Spiral Staircase

Bespoke interior spiral staircase with seamless welds and a brushed metal finish.
